

# Document Exporter for iManage

*The fastest way to export documents in bulk from any iManage folder*

Exporting documents and data for an upcoming court date or client meeting can be complicated and time-consuming. GDSI provides a simple and easy way to export documents from different workspaces with minimal effort.

## KEY FEATURES

- Convert documents to PDF and merge together
- Export a CSV file with document metadata
- Send to a central Windows network share
- Review log of export details
- Fully integrated with Work 10 Web Client
- Export folders and documents

## SYSTEM REQUIREMENTS

- iManage Work 10.4 or newer Web, CloudiManage
- Microsoft IIS Server—Windows 2016-2022
- Microsoft SQL Server 2016-2022

*Uses GDSI's License Model platform for per seat or per export.*
