

# Workspace Exporter for iManage

*The easiest way to export folders and documents while maintaining the Workspace structure.*

Exporting folders and documents for an upcoming client meeting or court date can be inefficient and time-consuming without the right tool. GDSI has made the process of downloading this content, including document profile metadata, quick, easy, and affordable.

## KEY FEATURES

- Export all Workspace folders or only those with documents
- Export a CVS file with all metadata
- Choose to convert all files to PDFs
- Send to a central Windows network share
- Review log of export details

*GDSI supports bulk exports of Workspaces using a command line utility; included in the price, billed per exported Matter.*

## SYSTEM REQUIREMENTS

- iManage Work 10.4 or newer Web, CloudiManage
- Microsoft IIS Server - Windows 2016-2022
- Microsoft SQL Server 2016-2022
